Chronic Pain Gain in Alberta: An ECHO® Series Returns

The dynamic six-part learning series returns for biweekly sessions starting on **Wednesday, September 7**, from **4:30**

- 5:45 pm (MT) with Dr. Ted Findlay speaking on "**Fibromyalgia: Top Tips & Facts**".

Register below to join a group of collaborative primary care professionals as they work through a complex patient case supported by a hub team of experts.

Support this event by submitting a complex chronic pain case to be featured in future sessions. All submitted cases are anonymized.

Unraveling and Treating the Epidemic of Chronic Pain in Children and Youth

The Virtual Collab Forums return on **September 29**, from **7:00 - 8:15 pm (MT)** with Dr. Nivez Rasic (MD), and Dr. Melanie Noel (PhD, RPsych) presenting on the topic of chronic pain in children and youth. Register below to attend this event.

At the end of this session, participants will be able to:

- Describe the prevalence and epidemiology of chronic pain in children and youth
- Apply an approach to assessment and management of chronic pain in children and youth
- Integrate tools and resources from the session into their own practice
- Reflect on current research relating to the intergenerational connections between pain and trauma

Upcoming Virtual Collab Forums

This year brings new speakers and topics that are relevant to you and your practice. Save the dates:

- November 24, 2022
- February 23, 2023
- April 27, 2023

This 1-credit-per-hour Group Learning program has been certified by the College of Family Physicians of Canada for up to 5 Mainpro+® credits.
